January 2016 Newsletter

CEO Letter

Happy New Year! This year is already off to a great start and we have some big plans for Dr. Susan Love Research Foundation. Last year we completed a strategic plan for the Foundation and identified five priority areas that we will focus on over the next three years. [Read More.](#)

Insights Into Metastases

Dr. Love always keeps an eye out for studies or publications that provide clues to how breast cancer starts and how cancer cells spread because we aren't going to figure out how to stop cancer until we understand it. Scientists are making progress in our understanding of how cancer cells spread to other parts of the body in animals and this furthers our understanding of metastases. [Read More.](#)

Army of Women[®] Announces 100th Study!

Seven and a half years after its launch on the *Today Show*, Dr. Susan Love Research Foundation's **Army of Women** announces its 100th study! That's 100 studies by over 100 researchers collaborating with thousands of Army of Women members all with one goal: to understand and end breast cancer. The 100th study, Project Connect Online, seeks to evaluate the effectiveness of creating a personal website to communicate with others about the experience of having metastatic breast cancer and undergoing treatment. If you live in the Los Angeles or Orange County area, [you may qualify to participate!](#)

Walk with Love

Walk with Love registration now open! Join us on **May 1, 2016** for the ninth annual **Walk with Love** to benefit groundbreaking research into the cause and prevention of breast cancer. Use the code

Researcher Webinar Series—Current Studies: A Conversation with Dr. Juliet Spencer

The [first video broadcast](#) of the Army of Women's Research Webinar Series—Current Studies is now available! The webinar featured Dr. Juliet Spencer, PhD, the Principal Investigator for the Avon Viral IL-10 in Cancer Study (AVICS).

Past webinars from our [Research Webinar Series](#) have featured researchers who recruited through the Army of Women and had results to share. Building upon that success, we are expanding the series to include studies currently recruiting Army of Women members. During these webinars, researchers explain the background and significance of their studies in more detail and answer your questions. [Read more about the AVICS Study and view the webinar!](#)

Taplin Cellars

Dr. Susan Love Research Foundation is pleased to announce our latest cause marketing partnership! Taplin Cellars is a family run winery in the Napa Valley with a rich history of farming dating back to the late 1800's. In honor of their sister Melinda, Taplin Cellars is excited to announce the launch of Melina's Rose. Melinda Taplin began this project during the later months of her life and now the first wine is in the barrels. It will be released in the Spring of 2016. [Taplin Cellars](#) will donate 100% of profits of Melinda's Rose to the Foundation. Dr. Love's book and words guided Melinda along her treatment and for that the family is very appreciative.

EARLYWWLREG to save 10% on registration if you sign up before March 1st! Watch for more information and ideas on how to get involved. Not local to the LA area? Join us as virtual participant and walk in your hometown. [Click here to register!](#)

Researchers seeking Army of Women volunteers

Does [acupuncture](#) help reduce [joint pain](#) and discomfort caused by hormonal therapy? Why does [duloxetine](#) help some [breast cancer survivors](#) with chronic pain and not others? Find out how you can help researchers discover the answers to these questions and more by visiting the Army of Women's [current studies](#).
