

## Summer 2016 Newsletter

### From the CEO

The Metastatic Breast Cancer Collateral Damage Project questionnaire is LIVE! If you have metastatic breast cancer (MBC), we need you to participate by completing a Health of Women (HOW) Study™ questionnaire. Please take 30 to 45 minutes of your time to help us make a difference for people living with MBC. [Learn more.](#)

### A Look at Palliative Care

Many people confuse palliative care with hospice care - but they are not the same! While hospice care is for cancer patients when life-extending efforts end, palliative care is for all cancer patients, and it should be considered at diagnosis as part of the overall treatment plan. Palliative care is all about improving quality of life. [Read more.](#)

### Couple Chooses to Act with Love to Celebrate Wedding

When Chicago's Wendy Binstock and Eddie Rush got married this spring, they asked their guests to help end breast cancer instead of giving them traditional gifts. For them, a future without breast cancer was more important than anything they might receive from a wedding registry. [Read more.](#)

**RESEARCHERS SEEKING VOLUNTEERS**

### SHARE's Breast Cancer Helpline Is Here for You

Breast cancer can be frightening and confusing. What if you could talk to someone who's faced it and wants to help? Call SHARE's Breast Cancer Helpline and talk to a survivor who's specially trained to offer support, discuss treatments and side effects, and help you sort through your options so you can make informed medical decisions. Or we can just listen. Call toll free: 844-ASK-SHARE (844-275-7427). For more information, visit [www.sharecancersupport.org](http://www.sharecancersupport.org).

What genetic factors play a role in the development of breast cancer in young women?

Can adding flaxseed to a regular diet affect breast cancer risk in postmenopausal women?

Why does duloxetine help some breast cancer survivors with chronic pain and not others?

### AVON 39: The Walk to End Breast Cancer

Find out how you can help researchers discover the answers to these questions and more by visiting the Army of

Come to Santa Barbara, California, September 9-11, to walk for locally based and national breast cancer research and patient services organizations. Register [here](#) to support Dr. Susan Love Research Foundation and others like us and help obliterate breast cancer!
